

I think that the idea of taking away our right to privacy is the wrong thing to do when it comes to the telephone if people want those telemarketers calling than they can just leave there name off of the privacy list and they will get them but for those of us who do not want those calls we should be allowed to prevent them buy using the privacy laws that we use now please think about what we the people want before you pass this law after all we are the ones who elect you to protect our right so please do what we elected you to do. Thanks

Mrs. Pamela Strahan
